REAR ACCESS

The K-Carrel is a "sit-down" designed model so that the user can relax while performing tasks such as application/form fill, browsing information, and signing documents. This unit can come with a laser printer that delivers the print to the user from just under the display.

MDKS' Indoor Touch Screen Kiosks are manufactured for a trouble-free operation. All components are industrial grade components taking these units to an impressive MTBF value. All units are complete with heavy-duty baseplates. Optional over sized baseplates with rear kick wheels are also available.

Accommodates Display Sizes:  
15.1", 17.1", 19.1"

**KIOSK DIMENSIONS**

The **K-Carrel II** is a matching unit to the K-Carrel I. This model is the "standing" unit for performing tasks such as application/form fill, browsing information, and signing documents. This unit can come with a laser printer that delivers the print to the user from just under the display. Walk-up and use the privacy counter top experience.
